

2014 CQ WW DX RTTY RESULTS QRM

DX QRM

Great fun as normal ... **2E1AYS**. ROOKIE MAY 2013 ... **2MOSMM**. My best wishes to all and best 73 used old IC-745 100 watts and home made verticals ... **4K6FO**. via uc7k ... **4Z5UN**. First licensed FEB.11.2014 ... **5Q5R**. Member of EPC #11986 ... **7M4OOS**. I was able to enjoy this contest.Tnx for a fine contest again. Rig is IC-7600(100W) and ANT is Dipole ... **7N2UQC**. Great propagation. Thanks to the many stations who got me on all bands ... **8P2K**. For the first time as 9A1A team members participated 9 youngsters in age 15 to 18 ... **9A1A**. First licensed FEB.11.2014 ... **9A3DGW**. My Rig: Transceiver Yaesu FT-1000MP and VL-1000 Quadra Linear @ 400w. Antennas @ 27m (HF) 2-el Lightning Bolt Quad (LF) Butternut HF2V Vert. Band condx were pretty good. Due to limited operating time I didn't catch the best NA props so missed out on State/Prov multipliers. Multi-chasing ops calling blind from DX Cluster spots really bug me! Many thanks to the contest organizers. 73 to all from Borneo! ... **9M6XRO**. I enjoyed the contest ... **9V1PW**. YAESU FT 1000 MRKV....A41MX. K3 - SPE2K-Hexbeam at 12m ... **A65BD**. TKS FB CQWW RTTY CONTEST,73,CUAGN ... **BA4SD**. CE Contest Group ... **CA3SOC**. VERY GOOD CONTEST , RECORD PERSONAL 620 QSO . POINTS 452895 VERY GOOD KARKET ... **CO2RVA**. Kenwood TS- 2000 / Antena Windom 80m-10m ... **CT2JMP**. Very exciting Contest,, thanks a lot. see u next year. Vy 73 Manfred ... **DC9ZP**. TNX for nice Contest, but had only limited time, vy 73 de Harald ... **DDØVS**. IC-7700 Acom 1000 hor. wire Loop ... **DD1JN**. ICOM IC-7800 11 el. Beam, Diopl....DF3IS. TRX TS-2000, Dipol, 70 Watt....DG1RPU. Cu in the next Contest ... **DG3RCE**. At temperatures of 68°F I'm not long behind the TRX ... **DH5MM**. FIRST TIME FOR ME - NICE FUN ... **DH6DAO**. ICOM IC7800, ACOM2000A, 17ele. Optibeam OB17-4, Dipole 80m, 73 Mirko DJ1AA ... **DJ1AA**. FT-1000MP 100W but no 15m ANT: GAP-Titan (8bands vert) ... **DJ1OJ**. RIG: K3, 40 W OUT 80/ 40m: Dipol 20-10m:Hexbeam ... **DJ2AX**. ICOM 350Watts Quad or Vertical ... **DJ2IA**. Just a few hours - nice activity and condx ...**DJ2QV**. QRP 5 Watt from FT817 via tuner Z11 to off-center-fed dipole FD3 and for direction to the south atlantic ocean a mini Yagi MFB23 with a fixed beam on 10m and 15m ... **DJ3GE**. My first RTTY contest, so consider me as a Rookie in this mode Took me some time to find the right settings, but went better the longer it took. Could not join the entire time but it was big fun on the bands ... **DJ5AN**. CQWW RTTY 2014 ... **DJ8OG**. ICOM IC7800, ACOM2000A, 17ele. Optibeam OB17-4, Dipol 80m, 73 OP Mirko ... **DKØAE**. I had a lot of fun in just taking part. No antenna for 10m and rf-feedback on 40m/80m. That's why I concentrated on 15m and 20m most of my 24 hours ... **DK1IP**. Yaesu FT-1000MP,PA 400 Watt; FB-DX-506, LW ... **DK2AT**. Date of first licence: 30.11.2011 ... **DK6SP**. TRX: TS-480/SAT 100 Watt Antenna: Aperiodoc vertical VB-500 ... **DK7UM**. Rig: K 3, 100 Watts Ant: Dipole ... **DL1ARJ**. RIG: KENWOOD TS-480SAT, 100W Ant.: Butternut vertical HF6V (10-80m) mounted over ground ... **DL1ZBO**. Ten-Tec Argonaut II, Norfal-Doublet-Antenne, Tuner ZM-4, homebrew int erfase, 5 Watt out ... **DL2DWP**. Condx better than expected, especially Suunday on 10m ... **DL2QB**. Kenwood TS480 SAT,3 element Stepp IR, Dipoles for 80/40m ... **DL4NN**. Yaesu FT-450/Stepp-IR/Loop 168 Meter Umfang ... **DL4ZA**. My first CQWW in RTTY ... **DL5NEN**. TRX: SG-2020 ANT: GP (10-40m) ... **DL6NWA**. IC-7400 + ME1200-H, 500 Watts, Ant: GPA-30, G5RV ... **DL9GTB**. My 1st CQWW-RTTY from DM7C-QTH. Condx were not bad but no rare DX on 80m? ... **DM7C**. I'm 8 years old and after a year training here're my first steps in a contest ... **DN3CX**. 73 de ... **DO9MJ**. Icom IC-718 Antenna: Direc. 3 Elem ... **EA1EPM**. 73

to all, tnx & congrats to organitation, hasta la vista ... **EA1HRR**. 73s hasta el proximo contes ... **EA2BER**. ICOM 706 MKIIG dipolo DX-B Alpha Delta....**EA2DDE**. 73 grs por el concurso ... **EA2XR**. I'm new in RTTY and I can say it was a superb experience to work the CQ contest, all bands open until late and full of stations, it was a pity not have more time for test. 73 ... **EA3FF**. Hasta el proximo concurso, saludos i salut para todos ... **EA3HKA**. ICOM-7400 100W ... **EA4GB**. Yaesu FT900-AT Dipolo W-8010 E/O ... **EA5ICP**. FLEX 3000 ... **EA5IDH**. Not much time do another competition, sorry about that. RTTY kills my amplifier so some times I was working 100w. Really enjoy anyway. Thanks Mike ... **EA6SX**. Nice contest, good condx on 10m! ... **EA8/DD5ZZ**. Yaesu FT-857D Dipole Windom 70 watt ... **EA8AQV**. Monoband 20 mts ... **EA8BGO**. Yaesu FT-950 Antena Solarcom A-99 Dipole Made in Home ... **EA8CNR**. Great Contest, this year's antennas works in ED1R contest station :) ... **EC1KR**. Problem with n1mmplus to load a contest, error SQL and crash, sent email to WØYK to add extra time to get a lap-top used in the contest (300KM) and generate a cabrillo from this ... **EE5M**. Our first attempt at CQWW RTTY but we had terrible problems with PCs, various logging programs, and decoders at the start (despite previous testing). This resulted in us only making 200 QSOs in the first 7 hours, and a corrupted log which made later mult-hunting difficult. Anyway, we were happy with our effort once things got going and we learned a lot ready for a big improvement next time. Thanks to Pete G4CLA and Steve G3ZVW for traveling over, and it was great to have John EI7IG and John EI2FG as visiting operators. Also, thanks to all our ops for dealing with our early trials and tribulations with patience and great spirit ... **E17M**. Many thanks to all stations who called me and answered me. Sorry, who is not heard. Personal THANKS - RW0A, W1UE, RG9A, UN5C N1MM+ working fine! ... **ER3AU**. ICOM 706 100W 2ELQQ, IV-DIPOLE ... **ER5DX**. TNX 73! ... **ES2TT**. 73! ... **EU1DX**. TRX: FT-840, Ant: Delta Loop 168m ... **EU6AA**. 16.11.2011 ... **EW4RF**. 73! ... **EW8DX**. 73 ... **EW8DZ**. 73 ... **EW8OF**. 70watts IC-746 PRO ... **EW8OG**. 73 ... **EW8OM**. IC-746 ... **EX8BN**. Dipole antenna at 10m, ic-756 pro, wintest powered ... **F4EGZ**. F4ers ft920 quad 4elt 20/5elt 15/10 + TH6 DXX +2elt 40+dipole 40/80 +vertical 80 jn07ki dept 37 ... **F4ERS**. TX FT1000/pwr 30 w/ant kt34 + G5RV + L inverted ... **F5GGL**. 20M DX Log - SUN SDR2 - 1KW - Chruscraft X9 @18m - ASL 500 ... **F5OTZ**. Had fun as usual! Thanks 73 ... **F5PHW**. Transceiver: ICOM IC-751AF 80W in RTTY. Antenna: Dipole 80/40m and GP 20/15/10m. Software: N1MM Logger V14.9.0. A wonderful contest with a nice propagation on all bands I had a lot of fun this week end Thanks to all who worked me. See you again next year. Bernard ... **F5RD**. IC-703, K3/10, 5 watt; spiderbeam, lambda/4 verticals for 40 and 80 m Thanks to the organizers for the contest and to all who worked my qrp signal. Saturday was going well, however, on Sunday it was a fight for stations, it went very, very slowly ... **F5VBT**. Radio (ICOM IC 7400) Antennas (4 ELE Beam & 80m Di-Pole) Acom 1010 Amplifier Running 400w max This was a brand new team for the BRATS CLUB so it was a steep learning curve for us all. As usual there were problems as the interface would not key the Transmitter and then later in the contest the power supply blew up. Still we overcame all and enjoyed the Contest ... **GØBRC**. FT1000 with 100W into W3DZZ trapped dipole at 9m above ground ... **GØGDU**. Good contest & fun,great condx - huge support. 73 de Derrick ... **G3LHJ**. Running an Icom IC-7400 @ 5W QRP to a Hygain AV-14AVQ vertical at ground level.Conditions poor on 10m with high A & K indexes. Heard several west coast and SA stations but unable to be heard with the QRP ... **G6CSY**. FT1000 with 100W into W3DZZ trapped dipole at 9m above ground ... **G6NUM**. GREAT CLUB FUN -

POWERED BY ICOM ... **GA6NX**. Single band entry this year. Some good signals and lots to work. Wish I had more time. N1MM Logger+ worked a treat ... **G14SJK**. IC-7600 + MIXW3 ... **GM1C**. Total OFF: 25:37 hrs. (1537 mins) Total ON: 22:23 hrs. (1343 mins) ... **GM5M**. Just a couple of hours to spend in the contest. Had some fun, and nice to see 10m so wide open ... **GUØSUP**. I enjoyed my second rty contest very much. 88 and 73 ... **HA/KDØRYB**. Elecraft K3, SB201 (400W), HyGain EX14 & Dipole ... **HA1BC**. Thanks for the QSO-s. Rig: TS950 Power 600Watts A3S tribander dipoles, GP's ... **HA1TNX**. Kenwood TS850, ABT 80W, 4B GP (40-20-15-10), Dipole (80m) ... **HA2OS**. * soapbox ... **HBØ/DL5YM**. TS2000 / 100 W / 10 El. Optibeam / Dipole ... **HB9BTI**. Using a wire antenna on the balcony ... **HB9FKK**. IC751A & ICOM AT-500, Ant. FB-33 ... **HF70PW**. Limited Propagation on high bands ... **HL3AMO**. Hi guys ! I have very fun time.. cu agn next contest G,L ... **HL5YI**. What fun. Propagation held up with 10 mtrs providing the bulk of contacts for me throughout the contest. Thanks to all for the Q's and to CQ for sponsoring ... **HZ1PS**. Very nice contest, with big participation. Thanks for your work, for helping us to have fun ... **I2IOJ**. Good Propagation es Good Contest - Vy Vy happy to work this - I need a performance program for RTTY only Tks to organisation for the event ... **I4JEE**. Poco tempo a disposizione, e poche antenne, andrà meglio la prossima 73 Aldo ... **IK1RGG**. Kenwood TS940S ANT: ECO 7+ ; Trap dipole 40/80 Rigexpert ST Acer 5750G Windows 7 ... **IK2AUK**. Just few hours of operations. Certainly better next year Any way great contest and great fun! ... **IK2SAI**. Icom IC-735 70w Windom all band Ext. A.T.U. CG-3000 Mixw 2.19 RigExpert Standard ... **IK2SBB**. Only for controlog 73 ... **IK2SGF**. Great contest, good opportunity to test my new antenna home-made ... **IK2XDE**. First time ever on a contest in rty. Low power about 80watts out, TS-590, 3el Yagi Ultrabeam, 40-80meter dipole. I enjoyed it ... **IK4AUJ**. Nice contest. Hope in a good result! Simone ... **IK5RUN**. Few hours spent on contest,poor propagation on Saturday and better on Sunday, good contact in late evening. Worked circa 80W in multib vert antenna and Kenwood ts870 ... **IK5ZTT**. NN ... **IK6BSN**. RTX: YAESU FT-817/D ANT: 3 Band Directional + Dipole V inv ... **IK7GUW**. RTX: ICOM IC-756PRO III + HEIL PROSET PLUS IC; ANT: STEPP IR 3EL. 6-40M AT 18MTS/55FT + DIPOLES ON 40-80MTS; SW : QARTEST 4.6.1 TNX IK3QAR MOD: HM ... **IK7NXU**. VERY FUN CONTEST WITH MANY MANY STATION FROM THE WORLD. GOOD PROPAGATION ON 28TH ... **IN3ISV**. TS-2000 95 W ANT. VERTICALE AND LW ... **IQ2CU**. XCVR 1x K3 1x IC746pro ANTENNA 1X TH7DXX 1x BROAD-BAND DIPOLE with ATU 1x 2CD40 First experience in low power , very fun ... **IR3Z**. ROKIE LICENSE 09/2012 ... **ISØD-CR**. Just for fun. This contest it is a training on rty mobile ... **IT9DFI**. A good test for our improved setup and new Momobeam Yagi stacks. 73 de I19K ... **IT9GNG**. Poco tempo a disposizione purtroppo, il prossimo andrà meglio ... **IT9STG**. Operation part time, and a few hours activity. Only a dipole for 10-15-20 meters available ... **IT9VCE**. very good propagation on 10 meters, with USA and JA ... **IT9VDQ**. Licensed on 12/09/2012 ... **IV3DDN**. Rig: Kenwood TS 140-S Ant: Vertical 12AVQ (10-15-20) Dipole (40 -80) ... **IV3KSE**. Beautiful contest, 73 ... **IV3XNF**. few contacts in spare time, ft-950 barefoot and vertical antenna ... **IW5EIJ**. Fine job for my setup. Best result from 10 years. CQWW is ever the "RTTY CONTEST" ... **IZØEHL**. TS-2000 95 W ANT. DIRECTIVE AND DIPOLE ... **IZ2EWM**. Always amazing! ft817nd and moxon 10mt. see you next year! ... **IZ2JPN**. Licensed 2012 ... **IZ3XNJ**. Licensed 2013 ... **IZ3ZLT**. Despite not being totally set up as I would have liked, tried this CQWW to prepare for the SSB leg next month. As a new experience, cranked the tower up in the dark (it's in the woods) for the first time HI Propagation disappointed me on Sunday morning, as I had neither DX stations nor local EU, so probably sleeping some hours more would have been the best idea. Got better propagation with a nice run in the late local afternoon. Thanks to all

who called me, see you on the air! Ciao! Fabio IZ4AFW/IO4W/NZ1W ... **IZ4AFW**. Elecraft KX3 + UltraBeam UB-50 ... **IZ4MJP**. Part-time operation, by day only, relaxed and fun ... **IZ5MOQ**. Overlay category for single element/wires only would be good for those of us with postage stamp yards ... **MØVAA**. Tnx contest 73! ... **MØZRS**. My amp packed in shortley into the contest, so only had a short time on ... **M2G**. K3, Dipole for 80/40m, C3 and Optibeam for 20/15/10m, Win-Test 4.12 First time club has both optibeam and C3 high up and low band dipoles are well tuned. This setup increased my score a lot from last year, despite this time I did not bring any SO2R gadgets. No opening to JA on 10m and no rate from Far East was generated on 15m either. In the afternoon, opening to W/VE on 10m was better than last year and I enjoyed nice rate, particularly on Sunday. Normally, towards end of the contest, in other words, late Sunday afternoon to the end, you cannot expect good rate even propagation is better than Saturday. However I experienced unusually high rate in these hours. I felt it was very strange. I noticed several east coast US stations sent â??08â?_ instead of â??05â?_. I guess it is side effect of big promotion of WRTC2014 (IARU) back in July? I only used MMTTY. I was a bit lazy to install 2Tone and other decoder on my laptop so sorry if I could not copy your callsign! Thanks to JARS club members for antenna work during summer months. Thanks for QSOs and see you all in next year's edition! 73 Kazu M0CFW, M5Z, JK3GAD ... **MJ5Z**. That was my first CQ WW Contest it was fun but unfortunately we I had on Sunday at 20:08 to give up because my IC 7700 strike. Had no more output power. vy 73 Wolfgang ... **OE4NKB**. much but made some great contacts Good to have the contest
season back in fullswing ... **VA7HZ**. Very part time: I was work-
ing this weekend, barely managing to squeeze in some con-
testing. Very frustrating: my AFSK kept developing a bad hum
on the signal; tried every trick in the book to cure this, but the
only thing that worked was to shut down and hard reboot every-
thing and start afresh. Very slow: without my trusty hex-beam,
having to rely on the 80/40 vertical as an all-band antenna proved
to be like suicide with toenail clippers... slow and painful ...
VE3BR. MISSED THE 1ST DAY DUE TO WORK, BUT HAD
FUN ON THE 2ND ... **VE5KS**. No EU or JA worked in Contest.
Solar disturbance hit on Sunday and ruined what could have
been a decent score. I guess one should be greatful 10 was open
at all from this part of the world ... **VE6UM**. I did not have a lot
of time to spend in this contest we had a nice wx weekend and
our Club is doing ckasses for new hams. I downloaded the new
N1MM+ Logger and got familiar with the great new version. 73
Gerry ... **VE7BGP**. The best RTTY contest weekend ever in my
experience. Great conditions, good participation and plenty of
great ops. Thanks to CQ and all who participated! ... **VK3TDX**.
My 1st RTTY CONTEST,very interesting and should be there
next year. Will improve my skill so hopefully will do better next
time. 73.Daniel ... **VK4AFU**. Just a few constatcts to test the new
Antenna, I was exhausted after mounting it during day one ...
XE2B. "Nice weekend, excelent propagation from Europe, it was
my better score of this contest, near to 1 million of points, not
bad for vertical a ntenna multiband (Diamond CP5H) and 100
watts (Kenwood TS-2000). See Y ou on next contest best 73's."

KØJJR. Live log! ... **KØRC**. Best score yet ... **KØVG**. Your web submission form doesn't match the format that any of my log programs export Cabrillo logs in, so I can't just cut and paste from the Cabrillo text file. I have to edit it all kinds of ways. How about a simple web upload interface? I'm just trying to submit a checklog for the 9 contacts I made ... **K1OC**. Elecraft K3 @ 5 watts; dipole-yagi ... **K2YG**. Great contest and glad to see 10 Meters was working! ... **K3STL**. "Band conditions on 21 MHz. were excellent for QRP." ... **K3TW**. Great contest - love RTTY! TS-590S with Carolina Windom Com apt 80 ... **K4TOJ**. Spent most of my time fixing antennas. Couldn't really get a run going until the last few hours of the contest. Amazing the DX that was available this weekend! ... **K5ZD**. Our first M/S with two LP stations at K6ND-MA. Peanut station: 40-10GP, wire 80M & 160M 4-Squares, BEV RX ... **K6ND**. This is a 20-meter single band entry with a third contact not to count in the entry ... **K7AWB**. 2013 ... **K7JSG**. 75 W, FT897D, SignalLink USB, 40 m dipole up 25 feet used as a top hat on 21 feet of radio shack twin lead shorted into a 4:1 with the other side an elevated 30 foot radial and a MFJ intellituner to match it all ... **K7RFW**. Got started late as I needed a remote coax-switch on the tower. I believe there is an old adage about planning ahead. There were some great hi-band conditions. FB! One interesting QSO was an N4 who sent me Zone 8 from an eastern state. I pointed out the exchange was a CQ Zone number and Zone 8 was far to the south of him. He sent me Zn 8 four times, so I logged it that way. I hope he reports what he was actually sending. Hi. -- Thanks to all who answered my calls. Jerry ... **K7VIT**. WOW! I am Flabbergasted & Amazed what 5 watts on RTTY into simple antennas will do! No longer own an acre with large antennas. Since the bankruptcy / foreclosure in 2013 we have living very minimal in a small travel trailer in an RV park. To keep the chance of any issues with the neighbors decided to try QRP RTTY into a 10M dipole at 16 feet. Sat morning I remembered a friend gave me an old screwdriver mobile antenna so I dug it out of storage (Most of whats left in there) and built a mount for the back of the RV, grabbed the control kit I made back then, adapted it to a SO-239 input, mounted it, ran the wires, tested the 12V control. Viola! it works! now a 4 or 5 band peek at QRP RTTY. So were off. Starting 9AM Sat morning. And 10M is Hot on the dipole. Once done mounting the screwdriver, I try 15 for a bit and then on to 20 well after sunset. The band is cooking when low and behold, I find. AND WORK! KC4AAA on the SOUTH POLE with 5W on RTTY from a aging IC-746 that's feeding the battered screwdriver on the rear bumper of the RV! This is the kind of stuff that makes you feel young again! Soon its obvious 15M is the place to be Sunday so I stay put and when the dust settles I worked 174 QRP Qs, 105 on 15M alone! Not bad for a fat old man just looking to have a bit of fun. Was so busy I never turned on the game. Wonder how the Steelers did? LOL! Just goes to show ya. You never know what life has in store for ya if you just get off your butt! 73s from North Texas! de Tim - K7XC - EM12ur. (PS: Looking forward to playing with the BIG Quad antennas at the home of Gary - WA5FWC this coming contest season.) ... **K7XC**. First CQ RTTY contest worked ... **K8JTD**. K3 and a dipole

at about 40' that favors Europe. Overall, the score was down somewhat from last year even though the mults were up in all categories and BIC time was about an hour more. Total Qs were down only slightly, so I think the difference was the ratio of US to DX. Best catches (for me) were KC4, HZ, VK. First time for N1MM+ in a full contest and overall the experience was good, but I did suffer through some occasions where the program got so busy doing who knows what that nothing updated for maybe as long as 10-20 seconds. It cost me a few Qs ... **K8MU**. First RTTY contest after being a ham for 37 years! FUN! ... **K9GY**. Rough Conditions but worked some new ones ... **KA1DBE**. 06/18/2012...KB3YVS. 2013...KC1ACN. 73! Great contest! ... **KC8SQC**. 10/21/2013 ... **KDØWWH**. First real attempt at the RTTY contest ... **KD3HN**. Great contest even with flacky band conditions. 15M and 20M were great bands. Excellent runs made this contest a lot of fun to work ... **KD3TB**. 2014-04-30 ... **KE6DM**. Nice to have ten meters open around the world. This is the first time that I've been able to devote more than a few hours of operating on this contest and I had fun! Even though it just turned fall, the temps in the shack quickly heated up with the equipment on for the duration. I am looking forward to next year! 73, de Ron ... **KOØZ**. Had SO2R working for the first time in a major contest. Duel CQ at times and other times Run on #1 S&P on #2 was a lot of fun. Was nice to see SFI at 170 - sure made 10m exciting. Calls from C37NL, C91C, ZA/, ZS6WB, ZD8RH, and HZ1PS makes for exciting runs ... **KU4V**. K3 / N1MM / MMTTY / 2Tone / Hex Beam / Beverage / Delta Loops. Bands were very good, particularly on Sunday. Many thanks for a great contest weekend and for all of the Qs! 73 KV4QS ... **KV4QS**. 15m seemed to be the money band. 10 was open, but a bit slow for me, and I had a hard time getting much rolling on 20 until Sunday afternoon. Nice to hear both W1AW/5 and W1AW/7 on for the contest ... **KX7L**. CHECK LOG ONLY ... **NØYCY**. What a blast! New to this game and found that there's lots to learn but that's also what makes this hobby so great. This was my first significant RTTY effort after only casually playing in the BARTG HF and NAQP RTTY contests. Station, interfaces and N1MM Logger worked without a hitch. I was SO1R but after this weekend, I am newly motivated to get SO2R ready for RTTY. Special thanks to Dennis, W1UE, for his recent YCCC RTTY seminar and the presentation he gave at ARRL Convention. Both of these provided great info on setting things up for RTTY contesting and improved my use of function keys. Station Notes. The bi-directional mode on my SteppIR was very helpful when EU slowed down 15/10M and gave me the ability to work stateside and EU at the same time. My 40m inverted vee is just not good enough for any serious contesting so I must work to improve that situation. Learned that there is no way I am cut out to work a whole contest or anything more than 26 hours straight. New respect for ops who can put in anything close to 48 hrs. The week before the contest I was able to operate RTTY as W1AW/1 CT and experienced unbelievable pile ups on 15M in the late afternoon local time. Coming off that I was very disappointed that I couldn't get a run going to JA on either Saturday or Sunday and had to settle for only a few S&P contacts. Using both MMTTY and 2Tone, I found that there were times when one decoded better than the other. I definitely need to spend some time working out the multiple RX windows to be sure that I'm getting the most from them. I'm also thinking that my mother board "soundcard" may not be a good choice for RRTY decoding as I had lots of spurious characters displaying in the 2Tone window when noise was low and the frequency was clear of any signals. Thanks to all who worked me and apologies for the many times I screwed up the exchange or call sign and had to be corrected. Like I said, lots to learn ... **N1IXF**. Thunder stormes forced early shutdown both Saturday and Sunday evenings...N2ESP. 2014 Sep CQWW RTTY ... **N4BP**. This is for the benefit of the ones I worked, I did not keep a score ... **N4MRM**. Well, that was weird. Very strange conditions (for me) here in SoCalif. Not much on

80, not much EU/AF DX heard on any band. Frustrating to see the East Coast working the EU's. Low wire ants only and take-off angle to my NE is blocked for all below about 25-30 degrees. At least I have an SB-220! The good (and bad) news was there were signals were spaced every 200 hz or so at times. I figure one man's Mark is another man's Space. Only 46 entities worked this year. Al in all, I had a blast - great to work a lot of the familiar calls. Thanks for the Q's! Ray ... **N6HE**. One of my first rty contest and it was fun ... **N6IC**. Worked HC1 9 seconds too late:- (. Don't know why I used the DX cluster, I could not hear the spotted stations ... **N9BT**. Only had 6 hours to operate due to this being a busy weekend. Still had a lot of fun. Decent conditions on all bands ... **N9OK**. 2013 ... **N9RWC**. Busy weekend, so I popped into shack when I had some time. No logging software for this contest, so between "honey do's" and other activities, it was hard to settle in. I focused on 10m as that fit my, "escape for a while from XYL" to prowling 10 for some new RTTY DX! Between RTTY contest prowling and some other needed CW DX, it was a win win for me and XYL! Operating conditions, Icom 756PROIII 100 watts to TH2-MK3 2 element triband at 37', 80m OCF dipole at 35' ... **N9TF**. Great Prop. 10 & 15m were hot. Lots of good contacts. Several new ones for the 10m band. Tnx to all I made contacts with. 73, ... **NC4MI**. 15.5 hrs, part-time effort. Bands were great. Couldn't pull myself away from 10 meters! Had to stop for over 2 hours Sunday afternoon to go to one of my broadcast transmitter sites to reboot a piece of equipment ;(... **NF4A**. Excellent band conditions. Was able to work only about 9 hours. Very enjoyable contest ... **WØEM**. Band conditions were great. The propagation gods were smiling down on us. About time. Didn't get on 40 & 80, and only in it for 7 hours. Back problems forced me to get into a better chair. Still had fun. It was a good test for my brand new Yaesu FTdx-3000 that I got on 9/25. Fortunately I had a good friend who has had one for about 2 years and he helped me get up and running on RTTY. Thanks, Jim ... **WØRAA**. Off to a bad start, computer glitches, lousy band conditions but it was fun anyway ... **W1TEF**. How much fun you can have with a 291 ft delta loop at 35' and a max 250 watts ... **W3SA**. Great radio wave propagation conditions on 10 meters from here in central Florida ... **W4HM**. Great time on the radio! ... **W4SDJ**. OPERATING TIME ABOUT 18 HR 20MIN, THIS WAS 100% S&P, MY FIRST REAL RTTY TEST; PART TIME EFFORT, LATE START, OLD N1MM HAD BEEN DAMAGED BY MALWARE, HAD TO DOWNLOAD + AND CON-

FIGURE, KIND OF LIKE IT BUT WILL NEED TO READ THE BOOK FOR BEST USE. ALSO DID NOT GET MMTTY TO WORK FROM N1MM SO HAD A MULTISTEP PROCESS FOR EACH Q. IF I HOSED A CALL OR ENTRY THAT IS LIKELY WHERE IT HAPPENED DID NOT GET AS MUCH EU AS I WOULD HAVE LIKED BUT I MADE NO PLANNING EFFORT FOR THE TEST SO PART OF THAT IS MY OWN FAULT. HAD FUN,73 TIM ... **W6NS**. This W.W. RTTY was a challenge all around. WQ6X had work commitments much of the weekend allowing for only 15 hours in the OP chair. N6GEO certainly picked up the slack with an incredibly efficient 20 hours in the chair giving us 35+ total operating hours. We ran a fully-loaded FLEX 3000 SDR radio & Elecraft KPA-500 amplifier into a 7mh TH3-jr and a ground mounted 6-BTV vertical. Overall the operation ran flawless, except for a couple of Windoze "blue screens" and of course a K-Index of 4 noising out 80 meters and 40 meters in particular (S9 noise levels). On the other end of things, the 10-meter openings were quite nice this year, with 15-meters giving us our highest single-band total. Overall this was a GREAT RTTY contest. We look forward to the next one ... **W6R**. First RTTY contest. A blast! ... **W7IWW**. Flex 5000k , ALS600 into 260 ft loop at 35ft 40m was so good, enjoyed the contest ... **W8AKS**. SOSB HIGH 80 METER BAND ... **W8TOM**. This is my 6th year doing the contest and hoping for an all-time score! ... **W9KVR**. First Licensed: 2013 ... **W9TVX**. Gosh I must of done something wrong this year. I put more time and effort and what did I get ... less score! Ten meters was a surprise, not great but better than I expected. I guess I am getting a bit old for these all day and most of the night events. 73 BoB ... **WA1FCN**. SOAPBOX: QSO K NA Points DX CQ SOAPBOX: 20m 16 0 2 46 12 8 SOAPBOX: Total 16 0 2 46 12 8 SOAPBOX: Score: 46*20 = 920 points ... **WA3GOS**. another great contest ... **WB5AAA**. Another fine RTTY contest under the belt. And no Murphy problems other than a slip of the finger or two. Friday evening was a bit slow and S&P only after a morning asleep in the operating room. Still a bit foggy through Saturday. 15 Meters was a lot of fun with Asia, Europe and South America booming in with great signals. Thank you everyone for the Qs - much appreciated. Bill ... **WB6JJJ**. Please upload logs to LoTW! ... **WD5BJT**. Just had an OCF Vertical 12 feet off the ground and 5 watts. Great Condx! ... **WFØT**. Another great year ... **WQ3U**. WX7MB San Diego CA. DM12 Single Operator less than 100 watts. Great contest! Had a blast with this one. 73 de WX7MB watts ... **WX7MB**.
